Abstracts

Dental consumables are a set of different dental products that are used in individuals to treat dental impairments, for tooth restoration, and in the treatment of associated gingival tissues.

SCOPE OF THE REPORT:

This report focuses on the Dental Consumables in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The dental implants segment dominated the dental consumables market and accounted for a major part of the overall market share. Factors such as high biocompatibility, osseointegration, and durability are the key to the dominance of this segment in the global market. Also, the rising popularity of laser treatment is supporting growth in the dental implants segment.

In this market study, analysts have estimated the dental clinics segment to dominate the dental consumables market during the forecast period. The adoption of better technologies such as 3D printing and digital dentistry in the dental clinics have contributed to the dominance of this segment in the dental consumable market.

The worldwide market for Dental Consumables is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
