## **Abstracts**

Disposable Medical Textiles is a branch of Technical Textiles. Disposable Medical Textiles are disposable textile products and constructions for medical applications. Disposable Medical Textiles in this report mainly used in medical protection and surgical dressing, such as Disposable surgical gowns, Disposable surgical drapes, Disposable masks, bandage, gauze and so on.

The main materials are non-woven fabrics and woven.

### **SCOPE OF THE REPORT:**

This report focuses on the Disposable Medical Textiles in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. With developed manufacturing technology and advanced medical level, USA is the largest supplier and consumption market of disposable medical textiles, with a sales market share nearly 40%.

The second place is Asia, following USA with the production market share of 35% and the sales market share over 27%. Europe is another important market of disposable medical textiles, enjoying 18% production market share and 23% sales market share. With better performance, non-woven disposable medical textiles will occupy more market in the next several years.
