Abstracts

A door closer is a mechanical device that closes a door, in general after someone opens it. Choosing a door closer can involve the consideration of a variety of criteria. In addition to the closer's performance in fire situations, other criteria may include resistance to opening forces (for use by disabled or infirm), control over the rate of closing, safety, durability, risk of vandalism, anti-ligature and aesthetics.

SCOPE OF THE REPORT:

This report focuses on the Door Closer in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. China occupied 26.43% of the sales market in 2016. It is followed by Europe and North America, which respectively account for around 23.28% and 21.99% of the global total industry. Other regions have a smaller amount of sales. The global leading player in this market is Allegion, whose revenue is \$ 604.26 million in 2016, accounts for 25.74% of total revenue market.

The Door Closer is mainly used in Commercial and Residential field. The application market share of Commercial is up to 72.16% in 2016 and it is forecasted that share will be 73.10% in 2022 with increased adoption of door closer.

For price trend analysis, a key variable in the performance of door closer producers is raw material costs, specifically the speed at which any increase can be passed through to customers.

The worldwide market for Door Closer is expected to grow at a CAGR of roughly 3.0% over the next five years, will reach 2930 million US\$ in 2023, from 2450 million US\$ in

2017, according to a new GIR (Global Info Research) study.
