Abstracts

Double-sided tape is any pressure-sensitive tape that is coated with adhesive on both sides. It is designed to stick two surfaces together, often in a way which is not visible in the end product, due to it being in between the objects rather than overlaying them.

SCOPE OF THE REPORT:

This report focuses on the Double Sided Tape in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

As Global overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with Double Sided Tape industry in short supply on the market in the past few years, more and more companies enter into Double Sided Tape industry, the current demand for Double Sided Tape product is relatively low, lack of demand, excess supply. Ordinary Double Sided Tape products on the market do not sell well; rubber's price is lower than past years. The signal of market price change indicates the trend in the Double Sided Tape industry, low-end product has excess capacity, and high-end product is not in short supply.

Double Sided Tape product demand market has certain space, but basically showing the scarcity of high-end products, low-end products, excess capacity, there is a large market demand for high-end products to seize market share of imports acts, local enterprises export more low-end products overcapacity

As large demand of high-end products at home and abroad, many companies began to

enter the field of high-end. Currently, the Chinese Double Sided Tape industry is not only begin to transit to high-end Double Sided Tape products, while still extend in the resource-rich land and downstream industry chain.

The worldwide market for Double Sided Tape is expected to grow at a CAGR of roughly 2.4% over the next five years, will reach 4170 million US\$ in 2023, from 3620 million US\$ in 2017, according to a new GIR (Global Info Research) study.
