## Abstracts

Drawers are extensively used for storing things. For a drawer, slides are the most important part acting as a supporting structure without which drawer could not be installed. Technological advancements have enabled the introduction of drawer slide with an integrated lock which is one of the reasons for the product demand globally.

### SCOPE OF THE REPORT:

This report focuses on the Drawer Slides in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Price in US and EU is much higher than that of China and other developing countries due to their high quality and powerful functionalities. Developing countries such as China and India is more likely to attract more investment opportunity for their potential demand.

A critical factor for growth in Asia region is availability of raw materials at lower prices coupled with the presence of large number of suppliers and producers. China is anticipated to lead growth of the Asia Pacific market over the next six years. All manufactures in the world are committed to the improvement of product. These two years, some of Chinese manufactures can almost catch up with the world's leading technology too. Most technologies are developed by the manufacturers instead of importing from other companies.

Cash drawers in every house and retail stores require ball bearing slides. The increasing use of ATM machines, gaming machines, ticket machines, food and drink dispensing equipment which needs drawer slides are expected to contribute to the market growth. Stainless steel slides for harsh environments such as laboratories, clean

rooms, chemical storage, locker rooms, food preparation and horticulture are witnessing high demand and the trend is expected to continue in the long run. However, fluctuation in steel prices which is a major raw material used in manufacturing of slides poses a challenge to drawer slides market. Over the last few years, fluctuations in steel prices had a negative impact on the market.

The worldwide market for Drawer Slides is expected to grow at a CAGR of roughly 5.5% over the next five years, will reach 6540 million US\$ in 2023, from 4740 million US\$ in 2017, according to a new GIR (Global Info Research) study.
