Abstracts

Durable juvenile products are products like strollers, child safety seats, cribs, bicycles & tricycles and others, which are designed for children under the age of twelve. These durable juvenile products used to make children comfort, safety, ease and convenience. Now, in the durable products market, durable juvenile products occupied a large share and the market share is seems to be larger and larger.

SCOPE OF THE REPORT:

This report focuses on the Durable Juvenile Products in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Asia is still the largest consumption market of durable juvenile products, though the living standard in Asia area has got a large improvement. As we can see, Asia area, especially China, will be a larger market of durable juvenile product due to the emerging economic and massive population.

Now, Asia is the main production plant of durable juvenile product. These manufacturers of durable juvenile products often build plants these to enjoy the advantages of low labor cost. But in the future, with the governments paying more attention on their manufacturing industry, some enterprises may transfer to their countries.

In the product structure of durable juvenile products, strollers and child car safety seats occupied considerable market share. But, the quality performance of products made in Asia has a large gap with foreign products.

The market concentration is relatively low. There are many manufacturers with little capacity in China, and the product quality is relatively bad. In the future, there will be a

market adjustment period, which can help the durable juvenile product industry develop healthy.

The worldwide market for Durable Juvenile Products is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
