Abstracts

Furniture refers to movable objects intended to support various human activities such as seating (e.g., chairs, stools, and sofas), eating (tables), and sleeping (e.g., beds). Furniture is also used to hold objects at a convenient height for work (as horizontal surfaces above the ground, such as tables and desks), or to store things (e.g., cupboards and shelves). Furniture can be a product of design and is considered a form of decorative art.

SCOPE OF THE REPORT:

This report focuses on the Educational Furniture in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.
In the coming years there is an increasing demand for educational furniture in the regions of Asia Pacific, North America and Europe that is expected to drive the market for more high-quality educational furniture. Growth in government budgets in the principal countries, increasing of education expenditures, more-intense competition, launches in introducing new products, retrofitting and renovation of old technology, increasing adoption of educational furniture will drive growth in North America and Europe markets.
Globally, the educational furniture industry market is very fragmented as the manufacturing technology of educational furniture is relatively matures than some high-tech equipment. And some enterprises, like KI, Steelcase, Herman Miller, Knoll, VS, etc. are well-known for the wonderful performance of their educational furniture and related services. At the same time, Asia Pacific, occupied 42.60% consumption market share in 2016, is remarkable in the global educational furniture industry because of their market

share and technology status of educational furniture.

The impact on the cost and availability of raw materials and certain components is uncertain due to potential supply changes. The costs of raw materials have a significant impact on the level of expenses. If the prices of raw materials and related factors such as energy prices increase, and if new companies cannot pass those price increases on to customers, their results of operations and financial condition would suffer.

The worldwide market for Educational Furniture is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US$ in 2023, from xx million US$ in 2017, according to a new GIR (Global Info Research) study.
