EPDM Sealing Strip is a product used to seal, which takes EPDM as the main raw material and is made through mixing smelting or sulfide. It has good advantages of low compression permanent deformation, good low temperature flexibility, and high tensile strength and so on.

SCOPE OF THE REPORT:

This report focuses on the EPDM Sealing Strip in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

As Chinese overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with EPDM sealing strip industry in short supply on the market in the past few years, more and more companies enter into EPDM sealing strip industry, the current demand for EPDM sealing strip product is relatively low, lack of demand, excess supply.

There is also a certain space of EPDM sealing strip product demand market, but now the alternatives has appeared, and it was usurping the EPDM sealing strip market. The EPDM sealing strip market may be smaller and smaller in the future.

Despite the presence of competition problems, the global recovery trend is clear, investors are still optimistic about this area; the future will still have some new investments enter the field.

Along with the development of Chinese domestic EPDM Sealing Strip, Chinese domestic EPDM Sealing Strip has been very mature and advanced, and the performance distance has been shortening compared with the imported EPDM Sealing

Strip.

The worldwide market for EPDM Sealing Strip is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
