### SCOPE OF THE REPORT:

This report focuses on the Eyewear in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The eyewear market has gained significant growth in the recent years. Emerging countries such as India and China have been the most prominent markets that have tremendous opportunities. Increasing cases of visual impairment and eye defects coupled with inclination for latest fashion trends are the major factors driving the growth of the global eyewear market. Growing prominence of digital devices and gadgets among younger population has adversely affected the eyes, leading to increasing incidences of eye disorders. Therefore, the demand for vision correction products have risen sharply. Additionally, factors such as distinct increase in disposable income and improved standard of living in the developing economies such as India and Brazil have driven the need for premium quality, branded eyewear.

The worldwide market for Eyewear is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
