### SCOPE OF THE REPORT:

This report focuses on the Fashion Luxury Cashmere Clothing in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

China is the world's largest supplier of raw materials, accounting for about 70% of cashmere in the world, while Italy is China's largest export destination, in April 2017; Italy imported 98 tons of cashmere from China, Account 78% of the month's exports. China is the largest consumption market, due to the rapid growth of the national economy. Many famous brands have set up offices in China, like Loro Piana and Brunello Cucinelli.

Although China is the largest cashmere garment manufacturer in the world, its own brand market share is very low. Most of them exist as OEM. This has led to the local enterprises in China at the bottom of the interests of the value chain for a long time.

The worldwide market for Fashion Luxury Cashmere Clothing is expected to grow at a CAGR of roughly 3.9% over the next five years, will reach 3230 million US\$ in 2023, from 2580 million US\$ in 2017, according to a new GIR (Global Info Research) study.
