Abstracts

Fine Pixel Pitch LED Displays are also called Fine Pixel Pitch LED Displays, is collectively set the system, including LED display system, high-definition display control system and cooling system, with pixel-level control point technology, the display pixel units for brightness, color and uniformity of reducing state control. The Fine Pixel Pitch LED Displays displays the greatest competitive completely seamless and natural true color display. Fine Pixel Pitch LED Displays LED dot pitch means less P2.5 LED display, including P2.5, P2.0, P1.8, P1.5 etc.

SCOPE OF THE REPORT:

This report focuses on the Fine Pixel Pitch LED Displays in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The market for fine-pitch LED display has now entered its growth period since the concept was introduced by Leyard in 2012 and is expanding rapidly in scale. The booming downstream market and further technological advances continue to drive the consumption of chips and packages for fine-pitch LED displays.

The fine pixel pitch LED displays market is also fueled by the high flexibility offered by the products and the declining cost of the technology.

On the flip side, the widespread adoption of fine pixel pitch LED displays is challenged by their high initial cost. "We have found that small pixel pitch LED displays cost at least three times more compared to other display technologies such as DLP rear projection and LCD," the author states. However, TMR predicts that the growing competition in the market and continuous research and development in the field is projected to bring down the cost of fine pixel pitch LED displays in the coming years.

The worldwide market for Fine Pixel Pitch LED Displays is expected to grow at a CAGR of roughly 28.8% over the next five years, will reach 5050 million US\$ in 2023, from 1110 million US\$ in 2017, according to a new GIR (Global Info Research) study.

Market Segment by Manufacturers, this report covers

Leyard

Unilumin

Liantronics

Absen

Barco

Christie

SANSI

AOTO Electronics

Elec-Tech International

Mary Photoelectricity

SiliconCore

Chip Optech

Triolion

Vtron

Market Segment by Regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia and Italy)

Asia-Pacific (China, Japan, Korea, India and Southeast Asia)

South America (Brazil, Argentina, Colombia etc.)

Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa)

Market Segment by Type, covers

P2.1-P2.5

P1.7-P2.0

P1.3-P1.69

P1.0-P1.29

Contents

1 MARKET OVERVIEW

1.1 Fine Pixel Pitch LED Displays Introduction

1.2 Market Analysis by Type

1.2.1 P2.1-P2.5

1.2.2 P1.7-P2.0

1.2.3 P1.3-P1.69

1.2.4 P1.0-P1.29

1.2.5
