Abstracts

The functional flours market is directly influenced by the growing processed food industry. The rise in consumption of bakery and R.T.E products in developing economies is driving the market. Busy work schedules demand on-the-go consumption and convenient meals. In addition to this, health and wellness consciousness among consumers, and rise in income levels have boosted sales of functional flours as base ingredients and thickening agents. Food safety legislations and health hazards of gluten (for gluten-sensitive individuals) have helped in educating consumers about the benefits offered by functional flours in food products. In light of the benefits offered by different functional flours, and the increasing demand for bakery and R.T.E. products, governments of various countries are promoting the functional flours industry, assisting the manufacturers and suppliers of this industry.

SCOPE OF THE REPORT:

This report focuses on the Functional Flour in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The Spain Functional Flour industry has a rather high concentration.
