Abstracts

Gastrointestinal stents consist of stents that include trans-hepatic, esophageal, biliary stents, pancreatic and duodenal stents. The stents are used during colorectal cancer, inflammatory bowel disease, GI bleeding, and other diseases.

SCOPE OF THE REPORT:

This report focuses on the Gastrointestinal Stents in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Based on material, the self-expanding metal stents segment accounted for the largest share of the global gastrointestinal stent market in 2017. The large share of this segment can be attributed to their ease of insertion, a lower possibility of dislodgment or migration, its longer patency because of the large luminal diameters, high longevity, and large use of it in interventional endoscopy for various malignant obstructions.

The global gastrointestinal stent market, by end user, is segmented into hospitals and ambulatory surgery centers. In 2017, the hospitals segment accounted for the largest share of the market. The large share of this segment can be attributed to the large number of endoscopic procedures performed in hospitals for various gastrointestinal diseases.

North America accounted for the largest share of the global market in 2017, followed by Europe and Asia Pacific. The highly developed healthcare system, rising geriatric population, growing adoption of technologically advanced stents, and the presence of key players are the major factors responsible for the large share of North America in the global market.

The worldwide market for Gastrointestinal Stents is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.

Market Segment by Manufacturers, this report covers

BD

Boston Scientific

ELLA-CS

Cook Medical

Medtronic

Olympus

TaeWoong Medical

BVM Medical

ConMed

Micro-Tech (Nanjing)

C.R. Bard

Endo-Flex

Merit Medical Systems

Cantel Medical

Hobbs Medical

Market Segment by Regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia and Italy)

Asia-Pacific (China, Japan, Korea, India and Southeast Asia)

South America (Brazil, Argentina, Colombia etc.)

Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa)

Market Segment by Type, covers

Self-expanding Metal Stents

Plastic Stents

Market Segment by Applications, can be divided into

Hospitals
