Abstracts

Guerbet Alcohols is the Alcohols made by Guerbet reaction. The Guerbet reaction, named after Marcel Guerbet (1861–1938), is an organic reaction converting a primary aliphatic alcohol into its β -alkylated dimer alcohol with loss of one equivalent of water. This reaction requires a catalyst and elevated temperatures. Guerbet alcohols are branched saturated alcohols with superior oxidative stability and extremely low volatility.

SCOPE OF THE REPORT:

This report focuses on the Guerbet Alcohols in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Growing need for perfuming agents, emulsion stabilizer and super fattening agent in the range of cosmetic ingredients have revved up demand for guerbet alcohols. Attributed to low irritation and volatility characteristics, guerbet alcohols will witness significant demand in various industrial applications. The market is driven by various end-user industries, such as cosmetics & personal care, metal processing, detergents and cleaners, etc.

The market expansion of the global guerbet alcohols market is somewhat walled by high prices. Guerbet alcohols are highly priced and most of the manufacturers are based across Europe and North America.

The industry is expected to remain innovation-led, with frequent acquisitions and strategic alliances adopted as the key strategies by the players to increase their industry presence. Market stays in mature period with a clear concentration. Meanwhile, optimize product mix and further develop value-added capabilities to maximize margins. Manufacturers can take advantage of this situation by reinforcing their production units

and supply-chains to avoid any delay in production turn-around-times (TAT) and supply-lead-times.

The worldwide market for Guerbet Alcohols is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
