### **SCOPE OF THE REPORT:**

This report focuses on the Hearth in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Most sales occurred domestically, import and export of each region is not too much. Gas is more favored in Europe; wood hearth is more favored in North America. In future the major market will still be the two regions.

Market competition is fierce. Although HNI Corporation has a big share, the market concentration is relatively low. In this report, the top 10 listed companies only occupy about 48.92% of the market in 2015.

Briefly speaking, in the next few years, hearth industry will still be a highly energetic industry. Although sales of hearth brought a lot of opportunities, the study group recommends the new entrants who just have money but without technical advantage and downstream support, do not to enter into the hearth field hastily.

The worldwide market for Hearth is expected to grow at a CAGR of roughly 3.5% over the next five years, will reach 1730 million US\$ in 2023, from 1400 million US\$ in 2017,
