Abstracts

A helmet is a form of protective gear worn to protect the head from injuries. All helmets attempt to protect the user's head by absorbing mechanical energy and protecting against penetration.

In this report, Sports helmets (football, ski, etc.), Bicycle helmets, Motor vehicle helmets and Smart helmets are analyzed.

Smart helmets are combinations of ordinary helmets and high technologies, and they have a variety of intellectual functions according to diverse applications. But the development of smart helmets is still in initial stage, the number of smart helmets is very small compared with ordinary helmets, so in the report, we just give some introduction about the current situation of smart helmets and forecast the development trend of smart helmets market in the next few years.

SCOPE OF THE REPORT:

This report focuses on the Helmets in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. As Chinese overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with Helmets industry in short supply on the market in the past few years, more and more companies enter into Helmets industry, the current demand for Helmets product is relatively low. Ordinary Helmets products on the market do not sell well; Helmets' price is lower than past years. The signal of market price change indicates the trend in the Helmets industry, low-end product has excess capacity, high-end product is in short supply.

Helmets product demand market there is also a certain space, but basically showing the scarcity of high-end products, there is a large market demand for high-end products to seize market share of imports acts. According to our research, there are several companies that researching the smart helmet, such as Skully (US) and Livall (China), and Skully is in the stage of trial production, Livall is in the stage of financing, so we think that there is a certain opportunity in the industry of smart helmet.

The worldwide market for Helmets is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
