Home Furnishing refers to anything that is used to furnish a home, including both furniture and things used to decorate the home and make it more hospitable. The market can be segmented into several broad groups: Home Furniture, Home Textile, Wall Decor and Others. Home Furniture is the biggest market share while Wall Décor is the fastest growing sector in recent years.

Due to the higher price and gross margin of high-end products compared with the low-end products, in the next few years, companies will invest much more on R&D and transfer to high-end product field.
