Abstracts

Ice Maker is a kind of machine which produces ice from water. Ice machine may refer to either a consumer device for making ice, found inside a home freezer; a stand-alone appliance for making ice, or an industrial machine for making ice on a large scale. The term 'ice machine' usually refers to the stand-alone appliance.

SCOPE OF THE REPORT:

This report focuses on the Ice Maker in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

There are many ice maker manufacturers in the world, some high-end ice maker products are mainly concentrated in USA, Europe, China, Japan, etc. There are also some ice maker manufacturers in other regions, but the scales of ice maker companies is relative small, and the products are inferior to foreign ice maker products.

As the technology of ice maker is relatively mature and the downstream market is large, so now there are quite a lot of enterprises was in the ice maker market. Currently the production of ice maker is concentrated. The ice maker was mainly produced in Europe and United States, their products are famous for their quality and performance, so they are welcomed by the world. The ice maker produced in China is famous for their lower price than European products.

Although sales of ice maker brought a lot of opportunities, the study group recommends the new entrants who just having money but without technical advantage and downstream support, do not to enter into the ice maker field hastily.

The worldwide market for Ice Maker is expected to grow at a CAGR of roughly 5.6%
