Abstracts

Intimate Apparel, also known as undergarment, refers to a kind of clothing that people wear close to skin or under other clothes. Intimate Apparel products can be divided into four major product segments, namely, bras, underpants, sleepwear and loungewear, Shapewear and thermal clothes. The following table sets forth these four segments of Intimate Apparel.

SCOPE OF THE REPORT:

This report focuses on the Intimate Apparel in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. According to the report, raw material costs for intimate apparel will see much less fluctuations in the future as a result of a stable supply and demand of these raw materials.

According to the report, the mass market is the largest market sub-segment in the intimate apparel industry in the world, which covers a large consumer base, and has a higher growth potential compared to the low or high-end markets in the intimate apparel industry.

The worldwide market for Intimate Apparel is expected to grow at a CAGR of roughly 2.9% over the next five years, will reach 83800 million US\$ in 2023, from 70400 million US\$ in 2017, according to a new GIR (Global Info Research) study.
