## Abstracts

Individual quick freezing (IQF) is one of the major technology used to keep variety of vegetables. IQF or individual quick freezing is the process of quickly freezing each unit of product separately, by using cold air that is blown at a high speed on a fluidized bed. Products that are frozen using IQF technology have better flavor, texture and are more nutritious than product frozen with different methods.

### SCOPE OF THE REPORT:

This report focuses on the IQF Vegetables in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Large population coupled with preference toward frozen food and high disposable income contributed to a large share of the North America IQF vegetable market, and this zone took the market share of 40.56% in 2016. Many developing countries such as India and Russia are following the footsteps, since a large portion of the population can afford locally-produced IQF vegetables.

The world leading company in the IQF Vegetables industry is Dole Food, with the revenue market share of 13.58% in 2016, followed by B&G Foods Holdings, Greenyard NV, and other prominent companies include Capricorn Food Products, ConAgra Foods, J.R.
