## **Abstracts**

Jigsaw Toys is a tiling puzzle that requires the assembly of often oddly shaped interlocking and tessellating pieces. Each piece usually has a small part of a picture on it; when complete, produces a complete picture. In some cases, more advanced types have appeared on the market, such as spherical jigsaws and puzzles showing optical illusions.

### **SCOPE OF THE REPORT:**

This report focuses on the Jigsaw Toys in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. At present, in developed countries, the whole Jigsaw Toys industry is generally at a more advanced level. The highest value-added of Jigsaw Toys industry is R & D design. This part is captured by US, EU and Japan brand owner. However, foreign companies' manufacturing cost is relatively higher, compared with Chinese companies. The world's largest production area is concentrated in China. China is a major Jigsaw Toys producer.

Competition in the global Jigsaw Toys market is intensifying. The high-end of the market is dominated by foreign enterprises while local brands are the mainstay in the medium-to low-end segments of the market. Practically all international toy giants have established their own factories on the mainland or collaborated with local manufacturers to engage in production. Most of the major international toy enterprises have also made their inroads into the China mainland market by way of appointing sales agents or setting up their own marketing operations there.

With the development of global Jigsaw Toys production technology, the manufacturers

have realized that the copyrights, patents, and intellectual property are most important part of toy industry. Their share in the international market is increasing, and competitiveness in the international market gradually increases. Meanwhile, more and more parents pay more attention to the education of children, it can be forecast that Jigsaw Toys would be grow faster than other toy, especially in the BRIC countries. Although Jigsaw Toys brings a lot of opportunities, the study group recommends the new entrants just having money but without technical advantage and upstream and downstream support do not to enter into this field.

The worldwide market for Jigsaw Toys is expected to grow at a CAGR of roughly 0.5% over the next five years, will reach 450 million US\$ in 2023, from 440 million US\$ in 2017, according to a new GIR (Global Info Research) study.
