Abstracts

Labeler provides automatic labeling and application of a label to a box or a product usually on a conveyor system. They are time stamped, serialized, or require a variation in every label that is applied to the product or shipping box. Any of these scenarios is easily resolved with automatic printing and application of the label.

SCOPE OF THE REPORT:

This report focuses on the Labeler in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

First, for industry structure analysis, the Labeler industry is relatively concentrated.

These manufacturers range from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 45% of the revenue market. Regionally, United States is the biggest production Labeler area, also the leader in the whole Labeler industry.

Second, for price trend analysis, a key variable in the performance of Labeler producers is raw material costs, specifically the speed at which any increase can be passed through to customers.

The worldwide market for Labeler is expected to grow at a CAGR of roughly 3.6% over the next five years, will reach 560 million US\$ in 2023, from 470 million US\$ in 2017, according to a new GIR (Global Info Research) study.
