SCOPE OF THE REPORT:

This report focuses on the LNG as a Bunker Fuel in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

First, the LNG as a bunker fuel industry is concentrated around the ECA territories in the world, both on supply and consumption market, especially Northern Europe (Norway). These years, the North America and East Asia have generally shown attention to the potential for LNG as a bunker fuel, especially in South Korea Japan and China.

Second, in the world wide, the LNG powered ships usually sail on the sea, but for China, it is mostly distributed on the river. China government puts a lot of effort on LNG as a bunker fuel project since 2010, and now comes out a few good results, but due to the higher conversion and new construction fees, belonging with the fledgling bunker fuel network system, now the LNG as a bunker fuel industry is still holding on for the large range development.

Third, company mergers and acquisitions, and inter-companies cooperation have occurred for development and growth, also there are many companies adding investment on LNG bunker and LNG powered ship industry. All of them indicates and promotes the healthy develop trend of LNG as a bunker fuel industry.
