Abstracts

The root vegetable known as Maca originates from the Peruvian Andes. Maca, also known as Peruvian Ginseng is reported to have numerous health benefits. In fact, powdered Maca is considered a unique superfood that boosts energy, improves stamina and enhances libido. Maca root powder is also widely used in many of the best male enhancement pills. Maca root extract is contained in many leading male enhancement supplements and is widely used to treat hot flushes, memory loss, stress, depression and fertility.

Maca extract is also rich in essential minerals such as phosphorus, iodine, potassium, sodium, manganese, calcium, iron and magnesium. Maca stimulates the pituitary gland and the hypothalamus, the glands responsible for regulating other important glands. This in turn, helps to re-balance the testicular, ovarian and adrenal glands, the pancreas and the thyroid.

SCOPE OF THE REPORT:

This report focuses on the Maca Extract in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Maca extract industry is mainly concentrated in Peru and China. Currently, there are many maca extract products producing companies in the world maca extract industry. The main market players are Koken, Peruvian Nature, Panpacific Corporation, Natural Health International, Inca Health and Jiaherb.

The global consumption value of maca extract increases with the 76.82% average growth rate. South America and North America are the major consumption region due to the bigger demand of downstream applications. In 2016, these this region occupied

42.20% of the global consumption volume in total.

Maca extract include many forms with different extract ratio. And each form has different application industries with price difference. With medical effect of maca extract, the downstream application industries will need more maca extract products. So, maca extract has a huge market potential in the future. Manufacturers engaged in the industry are trying to produce good performance maca extract through improving technology. The major raw materials for maca extract products are maca and other auxiliary materials. Fluctuations in the price of the upstream product will impact on the production cost of maca extract. The production cost of maca extract is also an important factor which could impact the price of maca extract.

The worldwide market for Maca Extract is expected to grow at a CAGR of roughly 1.0% over the next five years, will reach 59 million US\$ in 2023, from 56 million US\$ in 2017, according to a new GIR (Global Info Research) study.
