Abstracts

A shower chair is a seat made for bathtubs or showers. These seats are designed for use by people who are unable to stand to take a shower and must sit instead. With the use of shower chairs, elderly people and those with mobility problems are able to have some independence by bathing themselves or having help doing so. Some shower chair products are designed for both stall and tub types of showers, while others aren't. Although all shower chairs have a seat with metal legs, there are many different variations available.

SCOPE OF THE REPORT:

This report focuses on the Medical Shower Chairs in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.
