### SCOPE OF THE REPORT:

This report focuses on the Mining Equipment in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

As Chinese overall economic downward trend in the past few years, and international economic situation is complicated, in the next few years there will be many uncertainties, and coupled with Mining Equipment industry in short supply on the market in the past few years, more and more companies enter into Mining Equipment industry, the current demand for Mining Equipment product is relatively low, lack of demand, excess supply. Ordinary Mining Equipment products on the market do not sell well; Industrial Mining Equipment's price is lower than past years. The signal of market price change indicates the trend in the Mining Equipment industry, low-end product has excess capacity; high-end product is in short supply.

There is a certain market space in demand of Mining Equipment, but basically showing the scarcity of high-end products. Many high-end products are needed to seize market share of imports acts, because local enterprises export more low-end products overcapacity or molding process basic Materials.

The worldwide market for Mining Equipment is expected to grow at a CAGR of roughly 2.5% over the next five years, will reach 1480 million US\$ in 2023, from 1270 million US\$ in 2017, according to a new GIR (Global Info Research) study.
