SCOPE OF THE REPORT:

This report focuses on the Mobile Water Treatment in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The market for mobile water treatment system has traditionally been limited to the developed geographies, such as Americas and Europe; hence the global emerging regions of Asia Pacific and Middle East offer huge untapped potential. Most companies are looking at attaining first mover advantage in these regions.

GE Water and Process Technologies, Evoqua Water, Veolia Water are the key players in the world market. The rest of the market is relatively fragmented and serviced by regional companies. It has mostly grown through consolidation, along with mergers and acquisitions.

As funding opportunities become available, demand for mobile water treatment systems is likely to increase since these systems offer rapid response to emergency purified water in these situations. Huge capital investments, technological innovations and logistics to meet customer needs remain the most critical factors for vendors to consider.

The worldwide market for Mobile Water Treatment is expected to grow at a CAGR of roughly 10.0% over the next five years, will reach 1600 million US\$ in 2023, from 900 million US\$ in 2017, according to a new GIR (Global Info Research) study.
