## Abstracts

Mozzarella cheese is a soft, unripened cheese variety of the Pasta-filata family which had its origin in the Battipaglia region of Italy. Mozzarella cheese was traditionally made from buffalo milk. It is made all over Italy, in other European countries and USA from cow milk, however the process needs to be modified accordingly. The finished cheese, lightly salted, is white, soft with a very lively surface sheen and has unique property of stretchability. Mozzarella cheese owes its characteristics mainly to the action of lactic acid on dicalcium-para-caseinate.

Mozzarella cheese is used as a topping on pizza pie owing to its inherent stretching qualities. The popularity of pizza parlour, especially amongst youngsters has boosted the production of Mozzarella cheese.
