Abstracts

Natural colorants are food additives that are used to enhance the overall appearance and taste of food products. Natural colorants could be a dye, pigment, or substance in the form of liquids, powders, gels, or pastes. During the cooking process, food products may lose their natural color. These additives are used to regain the food color and to make the product attractive.

SCOPE OF THE REPORT:

This report focuses on the Natural Colorant and Flavor in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. It has been noted that most consumers are opting for products that are clean and have a green label as they are safer and healthier. The growing awareness about the side-effects of chemically synthesized ingredients such as toxicity and allergies have prompted people to choose naturally colored and flavored food products.

The worldwide market for Natural Colorant and Flavor is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
