Since the neck is a connecting link between the head and body, nerves, blood vessels, etc. through the spinal cord. After the cervical spine straight, body tissue of these caused a certain degree of oppression and prejudice, which triggered a series of diseases of the body. The role of the neck pillow is corrected the cervical.

Regardless of position, the cervical pillow supports your head and neck in a natural position for more comfortable and pastorally correct sleeping. It reduces nerve pressure to alleviate muscle stress and tension for pain relief. As you roll from your back to one side, it again properly supports the neck in a comfortable position on the raised section of the pillow.
