Abstracts

Personal care active ingredients are series of raw materials used in personal care products, which include the surfactants conditioning polymer emulsifier and emollients etc. and mainly used in skin care hair care cosmetic and oral care products etc. This report researches and analyzes the surfactants conditioning polymer emulsifier and emollients products etc.

SCOPE OF THE REPORT:

This report focuses on the Personal Care Active in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The personal care active ingredients industry concentration is relatively low; there are over two hundred manufacturers all over the world, but only a few manufacturers dominate the high-end products market, the top ten occupy for over 40% of global production, like BASF, Solvay, Dow Corning, Croda, AkzoNobel, Clariant, Evonik, Stepan, Innospecinc, Elementis Specialties, Lonza, Kao, Lubrizol, AAK Personal Care, Huntsman, New Japan Chemical, Colonial Chemical etc. the giants are almost located in USA West Europe and Japan. Most of the rest of manufacturers are some small-scale enterprises and produce the low-end products, mainly distributed in the developing regions like Asia, South America and the Middle East etc.

All manufactures in the world are committed to the improvement of product. These several years, some Chinese manufactures were aimed at improving their technology, but their product quality still cannot catch up with the international ones?, so they took low-end market in China.

This industry is easily affected by the global economy and policy, with the global economic recovery, more and more people pay attention to improvement of the personal health, especially in underdevelopment regions where have a large population and fast economic growth, the need of personal care active ingredients will increase.

The worldwide market for Personal Care Active is expected to grow at a CAGR of roughly 5.6% over the next five years, will reach 9170 million US\$ in 2023, from 6620 million US\$ in 2017, according to a new GIR (Global Info Research) study.
