SCOPE OF THE REPORT:

This report focuses on the Re-dispersible Latex Powder (RDP) in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Under the background of slower economy growth rate, companies face the higher risks of profit decline. Europe's economies in a state of slow growth, re-dispersible latex powder market has a certain potential in Europe, among them Europe's demand is relatively stable. Europe market is already saturated. These few years, Europe's re-dispersible latex powder production is more than its domestic demand; therefore, Europe would export re-dispersible latex powder to abroad countries. We tend to believe this industry now is close to mature, and the consumption increasing degree will show a smooth curve. On product prices, the slow downward trend in recent years will maintain in the future, as competition intensifies, prices gap between different brands will go narrowing. Similarly, there will be fluctuation in gross margin.

In future, the re-dispersible latex powder industry in Europe will be turn concentrated; Europe re-dispersible latex powder consuming market will still has a certain amount of growth. In Europe, Eastern Europe and the Russian market will be the next area of competition.

In recent few years, re-dispersible latex powder gross margins continue to decline.

Global competition is likely to turn to the relationship of competition and cooperation. We believe that this industry will move towards centralization. For developing countries, the re-dispersible latex powder industry still has great potential. In Asia, Southeast Asia, India and Central Asia will have a more substantial growth. Chinese market will maintain rapid growth.

The worldwide market for Re-dispersible Latex Powder (RDP) is expected to grow at a CAGR of roughly 4.4% over the next five years, will reach 1940 million US\$ in 2023, from 1500 million US\$ in 2017, according to a new GIR (Global Info Research) study.
