## Abstracts

School Furniture is a kind of equipment used for students in studying and daily life.

### SCOPE OF THE REPORT:

This report focuses on the School Furniture in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The technical barriers of School Furniture are relatively low, and the School Furniture market concentration degree is dispersed. The manufacturing bases scatter around the world; the key companies in School Furniture market include Steelcase, Herman Miller, HNI Corporation, Global Group, KI, TRAYTON GROUP, Knoll, and others.

Favorable government policies and rising foreign direct investments have increased the number of MNCs in the country and also boosted the entry of foreign players. This has led to a rise in the number of Schools as well as the demand for School Furniture worldwide. Also, the growing number of companies in the technology, media, telecom, retail, financial, and transport sectors in 2014 has increased the demand of School Furniture. Therefore, the growing demand for School space will be favorable for the growth of the School Furniture market.

As the demand increases rapidly for downstream industries, the demand for School Furniture will correspondingly increase. The increased consumption of School Furniture is expected to continue during the remaining years of the forecast period of 2016-2021. School Furniture industry will usher in a stable growth space.

In the past few years, the raw material prices were relatively stable, and expected that the School Furniture raw material price will be stable in the short term. However, the improvement of energy, transportation costs, employee wages, and equipment

depreciation will play a significant role in promoting the cost of School Furniture. Therefore, to some extent, the companies face the risk of profit decline. There are companies adding new capacities and aims at the cost and quality leadership which shall improve profitability. As the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality. The competition in School Furniture market will become more intense.

The worldwide market for School Furniture is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
