The Sphygmomanometers industry concentration is relatively high; there are many big manufacturers in the world, and above 80% are produced in China.

phenomenon in this industry. At the same time, they take a lot of OEM and ODM order.

Looking to the future years, the slow upward price trend in recent years will maintain. As competition intensifies, prices gap between different brands will go narrowing. Similarly, there will be fluctuation in gross margin.

Company mergers and acquisitions, and inter-companies cooperation have occurred for development and growth. As the downstream consumption usually follows with developed and rapid economic growth areas, such as BRICS, the giant companies prefer educating the market of them.
