SCOPE OF THE REPORT:

This report focuses on the Steel Powder in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

Currently, the global steel powder production is in a state of steady growth, at present, the main producing areas in Europe, United States, China and Japan, where the United States in the first row with 394K MT. Overall, the Steel Powder products performance is positive with the global economic recovery.

2. The technical barriers of Steel Powder are not high, and the Steel Powder production concentrated large companies including Höganäs, Rio Tinto, AK Steel Holding, KOBELCO, Metal Powder Products, Sandvik, Laiwu Iron&Steel Group, Jiande Yitong, Wuhan Iron&Steel Group, and others. At present, the gap in product quality domestic and imported steel powder is still significant. China still needs to import large quantities of high-end products, at present, product from Höganäs occupies high market share in China.

Steel Powder are widely used in Automobile, Machinery, Aerospace, Chemical industry, and others. In 2014, consumption in Automotive and Automotive Components, Machinery, occupies more than half of Steel Powder amount. Among them, aerospace industry and magnetic materials need high-end products, and have high price.

As the demand increases rapidly for downstream industries, the demand for Steel

Powder will correspondingly increase. The increased consumption of Steel Powder is expected to continue during the remaining years of the forecast period of 2017-2022. Steel Powder industry will usher in a stable growth space.

In the past few years, the price of Steel Powder gradually decreased and expected the price will not increase with the production released. However, the improvement of energy, transportation costs, employee wages, and equipment depreciation will play a significant role in promoting the cost of Steel Powder. Therefore, to some extent, the companies face the risk of profit decline.

There are companies adding new capacities and aims at the cost and quality leadership which shall improve profitability, such as Höganäs. As the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality. The competition in Steel Powder market will become more intense.

The worldwide market for Steel Powder is expected to grow at a CAGR of roughly 1.8% over the next five years, will reach 4380 million US\$ in 2023, from 3930 million US\$ in 2017, according to a new GIR (Global Info Research) study.
