Abstracts

Storage Tank are containers that hold liquids, compressed gases (gas tank) or mediums used for the short- or long-term storage of heat or cold.

Storage tanks are often cylindrical in shape, perpendicular to the ground with flat bottoms, and a fixed or floating roof. There are usually many environmental regulations applied to the design and operation of storage tanks, often depending on the nature of the fluid contained within. Aboveground storage tanks (AST) differ from underground (UST) storage tanks in the kinds of regulations that are applied.
