## **Abstracts**

Plastic Tarpaulin is a piece of material which has been designed to be waterproof or water resistant. Tarpaulins are widely used in various settings for everything from providing shelter from inclement weather to protecting flooring from paint drips. The traditional tarpaulin is often made of cloth such as canvas, while the more modern tarpaulin tends to be made from modern materials like polyester coated plastics. The modern tarpaulin has advantages in height and it generally has vibrant colors.

### **SCOPE OF THE REPORT:**

This report focuses on the Tarpaulin in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. In the last several years, United States market of Tarpaulin developed unsteadily, with the growth rate range from 4% to 5%.

In the application segment, transportation sector accounts for the largest share of tarpaulin in United States, about 63% of the total sales in 2016. In terms of tarpaulin types, PE tarpaulin dominated the market, with 56% market share in 2016.

The tarpaulin industry is fragmented. No companies can monopoly the market in United States. On the other hand, the players are increasingly focused on advanced product designing and development.
