Abstracts

Welding Equipment is a welded tool used in the welding process, mainly includes arc welding, resistance welding etc.

Welding is defined as a process where two or more pieces of metal or thermoplastics are fastened together by use of heat and pressure. The process of applying heat softens the material and enables it to affix together as one in a joint area when an adequate amount of pressure is applied.

SCOPE OF THE REPORT:

This report focuses on the Welding Equipment in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

China is the largest production regions, occupied 37.67% market share, and the production was 6739.4 k units in 2015. Lincoln Electric, Colfax, Illinois Tool Works are the major producer, and the leading companies' occupied 55.92% market share.
