Abstracts

This report studies the worktops and window sills market, worktops and window sills are belonging to construction surface materials. It is usually made of wood-base, quartz, granite or mixed of products.

SCOPE OF THE REPORT:

This report focuses on the Worktops and Window Sills in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The Worktops and Window Sills industry concentration is not high; there are more than one hundreds manufacturers in the world, and high-end products mainly from U.S. and Austria.

Many companies have several plants, usually locate in the place close to aimed consumption region and east Europe.

The Germany takes the market share of 17.2%, followed by UK with 16.8% in 2017.

Europe's consumption market has a quicker growing speed of CAGR 4.3%.

In the international market, the marketing channels characteristic differ from company to company. The giant companies are more likely to set their own big agents in some major countries and regions taking charge of regional business building their international market position.

Small companies, in contrast, put more effort on direct selling business. They can act as exporters at the same time, and it is a common phenomenon in this industry. As they do not have that much international brand influence, their product quality is not good enough when comparing with leading companies, however, they have price advantage. They like to expand their market share in developing countries and low-end international

market.

The market is not only influenced by the price, but also influenced by the product performance. Although small companies have price advantage, the application is narrow to some extent due to the poor manufacture processing, cheap raw material and less diversity of products.

The leading companies own the advantages on better performance, more abundant product's types, better technical and impeccable after-sales service. Consequently, they take the majority of the market share of high-end market.

The worldwide market for Worktops and Window Sills is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
