Abstracts

The cutting line in a string trimmer does all of the hard work, slicing through tough weeds and grass. This trimmer line is hard enough to cut through grasses, but soft enough to break against harder objects such as rocks, metal and fence posts.

Nylon String Trimmer Line is the String Trimmer Line made of nylon.

Nylon is the typical material used in trimmer lines. They are synthetic, hardened monofilaments that can be used for almost all weed-cutting tasks. It also makes a great trimming line if you use the correct line diameter and shape. Trimmer lines made of nylon make a perfect gardening tool for beginners and professionals alike.
