Nurse call system is an emergency response system used in hospitals and other healthcare facilities by patients to alert nursing staff in the event of an emergency. A basic nurse call button is equipped with a panic alarm button which when pressed alerts the nursing staff or a specific nurse regarding the emergency through a nurse call station. The alarm can be audio or visual reminder such as LED screen or buzzer system or a more integrated or advanced alert reminder through radio pagers, mobile phones or tablets. Such systems allow nursing staff to attend to the emergencies on a priority basis, preventing fatalities and reducing read missions in to the facility.
