Abstracts

The global Nutritive Sweetener market size is expected to reach \$ 2211.2 million by 2030, rising at a market growth of 6.8% CAGR during the forecast period (2024-2030).

Natural and Clean Label: There is a growing demand for natural sweeteners derived from sources such as fruits, stevia, honey, and maple syrup. Consumers are increasingly seeking products with clean labels, free from artificial ingredients and additives.
Health and Wellness: With rising concerns about obesity, diabetes, and other health issues related to sugar consumption, there is a shift towards low-calorie and healthier sweetener options. Nutritive sweeteners with lower glycemic indexes, such as coconut sugar or agave nectar, are gaining popularity.
Sugar Reduction Initiatives: Many governments and health organizations are implementing campaigns to reduce sugar consumption in the population to combat obesity and related health problems. This has led to increased demand for sugar alternatives in various food and beverage products.
