Abstracts

Office and contact center headsets consist of a pair of high-quality earphones connected by a band. The headset is either worn over the head or fitted in the ear canal. They are mainly used for listening to music and attending calls.

Scope of the Report:

This report focuses on the Office and Contact Center Headsets in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The use of headsets in offices and call centers increases employee efficiency and productivity. Headsets allow users to multi-task while also attending calls or listening to music. Headsets largely aim at helping users keep their hands free so that they can engage themselves in other tasks, such as taking notes or performing other daily office tasks, without any interruption. Cordless headsets provide users the freedom to move around the perimeter of their workspace during phone calls.

The worldwide market for Office and Contact Center Headsets is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
