Its core functions include relieving cervical spine pressure, preventing arm numbness during desk sleeping, and promoting deep relaxation. The primary application scenarios are corporate offices, study rooms, and business travel environments, catering to professionals seeking midday recovery. Its product boundary encompasses specialized cushions tailored for desktop or seated resting postures, excluding general-purpose bed pillows or standard travel neck cushions.

Upstream industries provide raw materials such as memory foam, polyester fibers, latex, and eco-friendly textiles. The midstream involves ergonomic design, cutting, sewing, and finished product assembly.
