Abstracts

The global Oncology Nutrition Deals market size is expected to reach \$ 2702.4 million by 2029, rising at a market growth of 11.1% CAGR during the forecast period (2023-2029).

The rising incidence of cancer and increasing expenditure on healthcare due to changing lifestyles are expected to drive the growth of this market. Moreover, increasing investment in research and continuous development in technology and treatment are opportunities for players operating in the oncology nutrition market. On the other hand, a lack of knowledge and understanding regarding oncology nutrition can hinder its growth.

Oncology nutrition deals with managing the nutritional intake of patients suffering from cancer to support the treatment and reduce its side effects. The oncology nutrition market can be classified based on the type of cancer, which includes lung cancer, head and neck cancer, stomach cancers, liver cancer, blood cancer, and others; by nutrition, including enteral nutrition and parenteral nutrition.

This report studies the global Oncology Nutrition Deals demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Oncology Nutrition Deals, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Oncology Nutrition Deals that contribute to its increasing demand across many markets.
