Abstracts

According to our (Global Info Research) latest study, the global One Way A2P SMS market size was valued at USD 22630 million in 2022 and is forecast to a readjusted size of USD 21440 million by 2029 with a CAGR of -0.8% during review period.

A2P meaning and definition can slightly vary between context and country. It does, however, always translate to “application-to-person”. As the name states, in a loose sense, it is receiving a message from an application instead of another person.

Usually, “application to person” has an extremely far-reaching definition. Any type of SMS flow from anything that isn’t a person falls under A2P messaging. For example, in the USA and Canada, the interpretation includes absolutely any marketing messaging, reminders, chatbots, etc. Basically, anything that is automated is A2P.

One Way A2P (Application-to-Person) SMS, also known as outbound A2P SMS, refers to the sending of text messages from an application, software, or system to a mobile device, typically to deliver information, alerts, notifications, marketing messages, or transactional messages. Unlike person-to-person (P2P) SMS, where individuals exchange messages directly with one another, A2P SMS involves automated communication from an application or business entity to a recipient.

Pro:

one-way texting makes it easy to send bulk SMS.

one-way texting keeps you from getting flooded with responses.

one-way texting is great for many types of SMS campaigns.

one-way texting saves time for everyone.

Con:

one-way texting makes it difficult to gauge feedback.

one-way texting isn’t always friendly or personable.

influencing the One Way A2P SMS market.

Regional Analysis: The report involves examining the One Way A2P SMS market at a regional or national level. Report analyses regional factors such as government incentives, infrastructure development, economic conditions, and consumer behaviour to identify variations and opportunities within different markets.

Market Projections: Report covers the gathered data and analysis to make future projections and forecasts for the One Way A2P SMS market. This may include estimating market growth rates, predicting market demand, and identifying emerging trends.

The report also involves a more granular approach to One Way A2P SMS:

Company Analysis: Report covers individual One Way A2P SMS players, suppliers, and other relevant industry players. This analysis includes studying their financial performance, market positioning, product portfolios, partnerships, and strategies.

Consumer Analysis: Report covers data on consumer behaviour, preferences, and attitudes towards One Way A2P SMS This may involve surveys, interviews, and analysis of consumer reviews and feedback from different by Application (BFSI, E-commerce).

Technology Analysis: Report covers specific technologies relevant to One Way A2P SMS. It assesses the current state, advancements, and potential future developments in One Way A2P SMS areas.

Competitive Landscape: By analyzing individual companies, suppliers, and consumers, the report present insights into the competitive landscape of the One Way A2P SMS market. This analysis helps understand market share, competitive advantages, and potential areas for differentiation among industry players.

Market Validation: The report involves validating findings and projections through primary research, such as surveys, interviews, and focus groups.

Market Segmentation

One Way A2P SMS market is split by Type and by Application. For the period 2018-2029, the growth among segments provides accurate calculations and forecasts
