## Abstracts

The global Online Forex Trading Platform market size is expected to reach \$ 10880 million by 2029, rising at a market growth of 9.3% CAGR during the forecast period (2023-2029).

The foreign exchange trading platform provides a real-time platform for foreign exchange traders to facilitate transactions. Through this platform, we can view real-time transaction prices and conduct transactions. Traders can also customize their own foreign exchange trading platform according to their needs. In addition, risk management tools, decision support tools, foreign exchange news, a complete set of background management systems, very strategic and friendly interface design, information systems, etc. Collaborators provide convenience in use. The foreign exchange trading platform with the highest market share is the MetaTrader 4 (MT4) platform developed by the Russian Metaquotes software company, and the MetaTrader 5 (MT5) platform was launched in 2010, but MT5 cannot be simply regarded as MT4. Because the two platforms are actually very different, both platforms have their own characteristics in terms of order type, transaction mode, and programming language. The differences between the two platforms include the number of standard indicators, trading varieties, time periods, transaction modes, etc.
