## Abstracts

According to our (Global Info Research) latest study, the global Online Horse Show market size was valued at US\$ 507 million in 2025 and is forecast to a readjusted size of US\$ 725 million by 2032 with a CAGR of 5.2% during review period.

To address the limitations of traditional equestrian performances?limited audience reach, significant time and space constraints, and a lack of interactive experience?online equestrian performances emerged. Since their inception in the early 21st century, online equestrian performances have witnessed substantial development in the dissemination and appreciation of equestrian culture. Currently, online equestrian performances have evolved into a diverse range of formats, encompassing high-definition live streaming, virtual reality interaction, and multi-view switching, and are widely used in equestrian competition broadcasts, equestrian teaching demonstrations, and cultural festivals, significantly enhancing the viewing experience and cultural dissemination.

Through technological and business model innovation, online equestrian performances are transitioning from an 'aristocratic sport' to a mainstream lifestyle. Despite challenges such as cost, talent, and standardization, policy support, consumption upgrades, and technological empowerment present tremendous opportunities. Enterprises need to focus on cost reduction and efficiency improvement, standardized services, and innovative business models to promote the sustainable development of the industry.
