Abstracts

Recruitment software revolutionizes the way companies interact with job candidates, allowing managers to streamline the hiring process and sift through applicants more intelligently and efficiently. With the reduction of time spent searching for candidates, it's likely the company will more quickly vet and onboard a quality hire. Common features of a recruiting platform include searchable document management, email templates for quick correspondence and employee referral functionality. Most solutions allow companies to create branded employment pages on their own site, giving jobseekers a way to easily find and apply for positions within the company. Additionally, recruitment software often pairs well with HR management software, making for a smooth and easy transition from applicant to employee.
