## Abstracts

The global Online Therapy Service for Teenagers market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

The trend of online therapy services for teenagers has been growing rapidly in recent years. Online therapy services provide teenagers with easy access to mental health support. They can receive therapy from the comfort of their own homes, eliminating the need for transportation or scheduling conflicts. This accessibility is particularly important for teenagers who may not have the means to travel to a therapist's office or who live in remote areas with limited mental health resources. Online therapy services offer flexible scheduling options, allowing teenagers to fit therapy sessions into their busy lives. This convenience is especially beneficial for teenagers who are juggling school, extracurricular activities, and other responsibilities. They can schedule therapy sessions during breaks or after school hours, making it easier to prioritize their mental health.
